Brian Feliz
Ph.D., University of Virginia, 2016
Assistant Professor of Mechanical Engineering
326 Reber / 814-863-5821 / bxf303@psu.edu
Research interests: Micro-hydro energy transport & material property characterization, Thermal devices & systems, AFM/NM/THz/optical properties of materials, Optics/thermo-mechanical, Phoanics

Mary Frecker
Ph.D., University of Michigan, 1997
Professor of Mechanical Engineering
Associate Department Head for Graduate Programs
326 Leonard, 127 Reber Building
814-865-1677, 814-863-1345 / mf37@psu.edu
Research interests: Optimal design; compliant mechanisms; smart structural actuation devices; medical devices; origami engineering

Amir Hafez
Ph.D., University of Illinois at Urbana-Champaign, 2002
Professor of Mechanical Engineering
317A Leonard / 814-865-4248 / mah37@psu.edu
Research interests: Micro and nano electromechanical systems; energy harvesting; real-time multiscale multisystem (mechanical, thermal, and electrical) behavior; electron microscopy

Daniel C. Haworth
Ph.D., Cornell University, 1986
Professor of Mechanical Engineering
140 Research East / 814-863-6269 / dch2@psu.edu
Research interests: Computational thermal/fluids sciences including fluid mechanics, combustion, computation; numerical methods, IC engines, and transportation propulsion systems

Reuben Kraft
Ph.D., The Johns Hopkins University, 2008
Shuman Early Career Assistant Professor of Mechanical Engineering
320 Leonard / 814-865-4570 / rkf102@psu.edu
Research interests: Computational brain bioelectrics; high-channel rate response of materials; mechanobiology; brain science and injury

Anil K. Kulckarni
Ph.D., Brown University, 1980
Professor of Mechanical Engineering
205 Reber / 814-865-7037 / akk@psu.edu
Research interests: Combustion; fluid mechanics; heat transfer

Robert Kunz
Ph.D., Penn State, 1991
Professor of Mechanical Engineering
301C Reber / 814-865-2144 / rfk2@psu.edu
Research interests: Computational fluid dynamics; multiphase flows; combustion; nuclear reactor thermal-hydraulics

Siu Ling Leung
Ph.D., University of Arizona, 2013
Director of Undergraduate Laboratories
323 Reber Building
814-863-1633 / sl12@psu.edu

Thomas A. Litzinger
Ph.D., Princeton University, 1986
Professor of Mechanical Engineering, Director of The Leonard Center for the Enhancement of Education, Assistant Dean for Educational Innovation and Accreditation
201 Hammond / 814-865-4075 / tal2@psu.edu
Research interests: Combustion; emissions; gas turbines; rockets; problem solving; learning

Aman Haque
Ph.D., University of Illinois at Urbana-Champaign, 2002
Professor of Mechanical Engineering
317A Leonard / 814-865-4248 / mah37@psu.edu
Research interests: Turbomachinery aerodynamics and heat transfer; convective heat transfer; experimental diagnostic apparatus for laminar-turbulent transition; turbulent boundary layers

Guba Manogharan
Ph.D., North Carolina State University, 2014
Assistant Professor of Mechanical Engineering
311 Reber / 814-865-4764 / apil1@psu.edu
Research interests: Adaptive manufacturing - design and materials; hybrid manufacturing; biomedical applications for additive manufacturing; metal coating; 3D sand printing

Eric Marsh
Ph.D., Massachusetts Institute of Technology, 1994
Professor of Mechanical Engineering
Associate Department Head of Undergraduate Programs
1408 Reber / 814-865-3587 / em3@psu.edu
Research interests: Precision engineering; machine dynamics; manufacturing

Anne Martin
Ph.D., University of Notre Dame, 2014
Assistant Professor of Mechanical Engineering
338C Reber / 814-863-4514 / am29@psu.edu
Research interests: Robotic controls; modeling human gait; improving impaired locomotion; predictive modeling; dynamics of rigid bodies

Jessica Monod
Ph.D., Penn State, 2017
Assistant Professor for The School of Engineering Design, Technology, and Professional Programs, and Assistant Professor of Mechanical Engineering
213V Hammond / 814-863-6621 / jdm5407@psu.edu
Research interests: Design of engineering design and new product development; prototyping theory and technologies; design thinking; prosthetic design; mass customization for emerging markets

Jean-Michel Mongeau
Ph.D., University of California, Berkeley, 2013
Assistant Professor of Mechanical Engineering
204 Reber Building / 814-865-7842 / jmm175@psu.edu
Research interests: Neural and mechanical control of animal locomotion; biological system identification; sensing bio-inspired engineering; robots as tools to study control of locomotion

Jensen Moore
Ph.D., University of Michigan, 2010
Assistant Professor of Mechanical Engineering
318 Leonard / 814-865-1749 / jpm15@psu.edu
Research interests: Medical device design; tissue cutting mechanics; tissue dynamics

Stephen Lynch
Ph.D., Virginia Polytechnic Institute and State University, 2011
Assistant Professor of Mechanical Engineering
311 Reber / 814-865-4764 / apil1@psu.edu
Research interests: Turbomachinery aeroacoustics and heat transfer; convective heat transfer; experimental diagnostic apparatus for laminar-turbulent transition; turbulent boundary layers

Guha Manogharan
Ph.D., North Carolina State University, 2014
Assistant Professor of Mechanical Engineering
311 Reber / 814-865-4764 / apil1@psu.edu
Research interests: Adaptive manufacturing - design and materials; hybrid manufacturing; biomedical applications for additive manufacturing; metal coating; 3D sand printing

Eric Marsh
Ph.D., Massachusetts Institute of Technology, 1994
Professor of Mechanical Engineering
Associate Department Head of Undergraduate Programs
1408 Reber / 814-865-3587 / em3@psu.edu
Research interests: Precision engineering; machine dynamics; manufacturing

Zoelvida Oumaie
Ph.D., Penn State, 1996
Professor of Mechanical Engineering
Associate Department Head of Administration
1408 Reber / 814-865-3587 / em3@psu.edu
Research interests: Properties-structure relationship of functional polymers and polymeric nanocomposites with unique combinations of mechanical-electro-thermal coupling; boundary layer stability

Matthew Parkinson
Ph.D., University of Michigan, 2004
Associate Professor of Mechanical Engineering
Design, T echnology, and Professional Programs, and Assistant Professor for The School of Engineering Design and Manufacturing
315A Reber / 814-863-9371 / mwp13@psu.edu
Research interests: Optimization and control of continuously- varying and discrete-event dynamical systems; stochastic modeling and estimation of nonlinear processes; signal decomposition; intelligent instrumentation

Christopher Rahn
Ph.D., The University of California, Berkeley, 1992
Professor of Mechanical Engineering, Co-director of BEST, Associate Dean of Innovation
100A Hamman / 814-865-3677 / crr14@psu.edu
Research interests: Dynamic systems modeling; design; analysis; and control with application to flexible structures; biologically inspired robotics; smart material actuators; sensors and energy harvesters; electrochemical energy storage

Bladimir Ramos-Alvarado
Ph.D., Georgia Institute of Technology, 2016
Assistant Professor of Mechanical Engineering
303D Reber / 814-865-7557 / bmr2@psu.edu
Research interests: Surrogate modeling; solid liquid interface phenomena for the nano/micro scale; modeling of wettabilities, fractures, and heat transfer; transport phenomena and electrochemistry in PEM fuel cells; active-liquid cooling of electronics; thermal characterization of microelectronics; CFD modeling

Alexander Rattner
Ph.D., Georgia Institute of Technology, 2015
Assistant Professor of Mechanical Engineering
236A Reber / 814-865-4387 / azo23@psu.edu
Research interests: Optimization and control of continuously-varying and discrete-event dynamical systems; stochastic modeling and estimation of nonlinear processes; signal decomposition; intelligent instrumentation

Matthew Bau
Ph.D., Purdue University, 2016
Assistant Professor of Mechanical Engineering
313B Reber / 814-863-4590 / mtp79@psu.edu
Research interests: Two-phase flow and heat transfer; multiphase flow turbulence, particle dynamics; aggregation and carbon transport in the ocean; 3D particle image velocimetry, flow visualization, infrared thermography

Asok Roy, P.E.
Ph.D., Northeastern University, 1976
Distinguished Professor of Mechanical Engineering, Electrical Engineering, Mathematics, and Nuclear Engineering
329 Reber / 814-865-6377 / ar2@psu.edu
Research interests: Optimization and control of continuously-varying and discrete-event dynamical systems; stochastic modeling and estimation of nonlinear processes; signal decomposition; intelligent instrumentation

Timothy Simpson
Ph.D., Georgia Institute of Technology, 1998
Professor of Mechanical Engineering and Paul Morrow Professor of Engineering Design and Manufacturing
209 Leonard / 814-863-7136 / tsw18@psu.edu
Research interests: Electronic packaging and microfabrication; heat transfer; semiconductor thermal management; electronic cooling; thermal characterization of microelectronics; CFD modeling

Alok Sinha
Ph.D., Carnegie Mellon University, 1983
Professor of Mechanical Engineering
330 Reber / 814-863-3079 / aks22@psu.edu
Research interests: Vibration control systems; nanomechanics; diagnostics and prognostics of dynamic systems; jet engines
